

An Important Announcement from Top Game:

Top Game, the popular provider of our igaming software, is in the process of acquiring PCI certification through SRC Security Consulting.

SRC Security Consulting was founded in 2000, and has since become a widely respecting online IT and payment systems security firm. SRC assists its customers in designing, developing, and evaluating security applications for electronic payment transactions, e-commerce, and network security.

Top Game's adherence to this higher standard of Internet security oversight will allow us to enhance players' safety and privacy in online transactions. We look forward to the completion of this certification process over the coming months, and will keep you informed of the progress.
